

From the Director's Desk

It is with great pride and pleasure that I welcome the visitor to this website to acquaint and get updated about the activities of the Institute. A beginning has been made to provide as much information as possible to the visitor who will get an insight into the excellent work being undertaken at the **CSIR-Central Institute of Mining and Fuel Research (CSIR-CIMFR)**.

The Institute has highly accomplished and experienced scientists and engineers in the fields of mining, chemical engineering, geo-science and chemistry as well as basic science and engineering from allied disciplines expanding the horizons in the two areas of **mining** and **fuel research**. A whole gamut of R&D efforts in the most important area of coal mining and coal based energy chain encompassing exploration, mining, exploitation and environmental concerns are highlighted. CSIR-CIMFR renders knowledge driven expertise for exploitation of other mineral deposits and excavations for hydroelectric projects, tunnels, railways, etc. and is committed to work for the Country's energy security and growth with an eye for a high standard of safety, productivity and cleaner environment.

Different links given in the website may be visited for detailed information. Suggestions and comments for further development and improvement of the Institute as well as the website are very welcome.

Wishing you an informative reading!

Pradeep K Singh

Director

CSIR-Central Institute of Mining and Fuel Research
